

JUDGE HIGBEE SEEKS RE-ELECTION

Candidate For Republican Nomination For Supreme Judge

Judge Edward Higbee of Kirksville, a member of the supreme court and presiding judge of Division No. 2 is a candidate for the republican nomination for member of the supreme court to succeed himself, his term of office expiring December 31, 1922. Judge Higbee was elected to the supreme court November 2, 1920 to fill the two years unexpired term caused by the resignation of Judge Charles B. Faris. Judge Higbee filed for the republican nomination on Friday, January 13. He was born at Ashland, Ohio, and reared on a farm in Johnson county, Iowa, receiving his education in the public schools of Iowa and the state university. He was admitted to the bar at Lancaster, Missouri, where he was married to Miss Mary Isabelle Dirney of which marriage eight children were born. He represented Schuyler County in the Thirty-eighth General Assembly of Missouri. Judge Higbee removed to Kirksville, Missouri, in 1906 where he engaged in the law practice. He was elected grand master of Freemasons in Missouri, in 1916 and was chairman of the district board which held its sessions at Canton, Missouri, during the war with Germany. Judge Higbee is recognized as one of the hardest working members of the supreme court and bears an enviable reputation for giving close attention to the duties of his office.

Citizens' Military Training Camp

There will be held in Missouri at Jefferson Barracks, near St. Louis, a training camp to bring together the young men of every type from all sections of the country on a common basis of equality, and under the most favorable conditions of out-door life; to stimulate and promote citizenship, patriotism and Americanism; and through expert physical direction, athletic coaching and military training to benefit all young men and bring them to realize their obligations to the country. Young men from Missouri can avail themselves without expense, of the advantages of the camp, which is to be held August 1 to 31, inclusive, at Jefferson Barracks, St. Louis. Application should be made to the Commanding General, 7th Corps Area, Fort Crook, Nebr., who will send all necessary information.

Last year over 40,000 applied, but only 11,000 could be accommodated. Those who first apply will, as a rule, be first accepted.

Biggest Balance in History

Missouri state treasury began the month's business Monday with the biggest balance in its history—\$34,350,945.

At the close of business March 31, the balance was \$17,657,281.

April receipts totalled \$18,460,449 and disbursements \$1,766,795. The big accretion to the treasury funds came of course from the \$15,544,419.59 raised by the sale of soldier bonus bonds. Other important balances are: General revenue, \$7,268,421; state school fund for distribution to the counties in July, \$3,874,914; good roads fund, \$4,350,002.

INTERESTING SOUVENIRS May 11th to 13th

We have just completed what we believe is by far the most attractive and best equipped optical establishment in North Missouri. Without regard to expense we have secured every kind of instrument or appliance which will help us to examine eyes and determine just the kind of glasses they need to make them see the best possible and with the greatest comfort.

Our laboratory is equipped with the latest improved machinery and instruments to enable us to make the glasses with the greatest precision and in the shortest possible time. Here you can see your own glasses made from the rough material if you care to. We know of no other place in North Missouri where glasses are actually made for the special requirement of each eye.

We have great reason to proud of this new place and want every one to see it, so as to be impressed with the completeness of every department. Every adult person who calls on the above dates and is shown through will be presented with a very unusual souvenir. Our new location is just north of the New Leeper hotel in Chillicothe.

Pres. Harding's Accomplishments

Although only one year of administration under President Harding has passed, in that short time he has not only reduced the annual appropriation from nineteen billions of dollars in 1919 to seven and one-half billions in 1920; to six and one-half in 1921; and to four billions in 1922, with the prospect of only three and one-half billions for 1923. He has also brought the great world powers to Washington City and there in an association of nations reduced to treaties a program which prevents any signatory nation from building great navies in the future, saved millions of dollars which would have otherwise been wasted on competitive naval programs, and in other ways insured the peace of the world so far as this nation is concerned for years to come without entering into entangling alliances with foreign powers.

If this much has been accomplished in one short year, why should not the president of the United States have a vote of confidence in the election in November with a republican congress and senate to hold up his hand and aid him in leading the nation out of the 'slough of despond' into which the democratic party has betrayed us and relieve us of the heavy burden of taxation at the earliest possible moment.

The people of South Missouri don't seem to be very "crazy" about Breck Long, the former Washington dude of the Wilson administration. When he opened his much heralded campaign for the democratic nomination for United States senator at Popular Bluff last week he had an audience of just 265, by actual count.

The edict is that women's hair and clothes must harmonize. That's why they are bobbing it.

Government positions are called "political berths," perhaps because so many people lie down in them.

The hardest man to deal with is one who knows he is wrong but believes he'd lose prestige if he'd yield a point.

Give The Pig A Chance

Just as soon as the little pigs will eat they should be fed in addition to what they get from the sow. This will pay, according to L. A. Weaver of the Missouri College of Agriculture, even when the sow is a good milk producer, and on the best ration.

The pigs should be given access to a small pen where the sow cannot go, to receive their supplementary feed. Skimmilk fed in a shallow pan is very good for them. The pigs may be taught to run into the creep for feed by allowing them some shelled or ear corn. As soon as they begin to eat well, a slop made of milk, some shorts, a little bran and some linseed oil meal or tankage fed along with the corn will make a ration which with proper exercise should satisfactorily meet the requirements for rapid growth.

This ration for the young pigs should include by weight: 4 parts shorts, 1 part bran and 1 part tankage. As the pigs become older the corn may be gradually increased until the amount is doubled.

Remember the poor success many have had with their pig crop this spring. This condition is doubtless due to the feed and care rather than the season. The Farm Bureau will help you right this matter by giving proper suggestions on feed and care next fall. "Ask and ye shall receive."

No true wife thinks her husband's worth is fully appreciated by the boss.

Women chatter too much, but their kind of talk usually is not the kind that has to be softened when a decent person enters the room unexpectedly.

Most people spend too much time worrying about the pin-pricks and overlooking character punctures.

It's hard to live up to a reputation you think you possess but don't.

Germany is working hard to spend her money fast so that she won't have any left to pay debts with.

The jar-of-water laboratory test shows how much of the dirt the Royal gets it embedded dirt—it sinks. The light surface litter floats.

When you buy a cleaner, remember this—

Remember your rugs collect two kinds of dirt. Some is on the surface—but the most and the worst is IN your rug.

The Royal is specially designed to get the dirt in your rug as well as the surface litter on it. With powerful suction, scientifically applied, the Royal draws out the embedded dirt, the dangerous, unsanitary dirt.

Royal's powerful suction gets ALL the dirt, yet cannot harm the finest rug, even Orientals, or sheerest drapes.

Let our Royal Man clean a rug for you in your home, free. Just call us up.

THE ROYAL Electric Cleaner Cleans By Air Alone!

The Royal weighs only eleven pounds. It is purposely made light so that it can be carried up or down stairs without effort.

Pay Your Bills by Check

One of our customers came into the bank not long ago and asked to see a certain check which he had paid in settlement of a business account. Through unintentional error he had not received proper credit for the amount.

He was given the check and with it proved that the bill had been paid. He was given credit for the amount because the check with the proper endorsement was accepted as a receipt. A checking account is the surest safeguard against paying an obligation a second time. We invite you to call and let us explain more fully the advantages of a checking account.
